

In-House Standardized Training Programs

Any of our standardized energy training programs can be delivered on site at your office or facility. Since you will be providing the training room and taking care of the catering, CIET can offer you discounted rates on most of our training programs, as detailed below. The costs will cover all other expenses such as training, examination and certification fees (where applicable) .

Training Program	Duration	Fee/pers.
Certified Energy Manager (CEM)	5 days	\$2,935
Certified Measurement and Verification Professional (CMVP)	2.5 days	\$2,180
Certified Energy Auditor (CEA)	3.5 days	\$2,180
Certified Building Commissioning Professional (CBCP)	5 days	\$2,935
Certified Business Energy Professional (BEP)	5 days	\$2,935
Building Operator Certification (BOC)	9 days	\$2,195

Certified in the Use of RETScreen (CUR)	3 days	\$1,450
ISO 50001 Standard Implementation	2 days	\$1,100
Advanced Measurement and Verification	2 days	\$1,095
Energy Efficiency Program Design and Implementation	2 days	\$1,195
Energy Efficiency Program Evaluation	2 days	\$1,195
Introduction to M&V	1 day	\$475
Efficient Building Envelope	1 day	\$475
Efficient Lighting	1 day	\$475
Motors, Variable Speed Drives and Energy Efficiency	1 day	\$475
Introductory Course on Combined Heat and Power	1 day	\$475
Energy Efficiency for Managers	1 day	\$475
Energy Monitoring, Targeting and Reporting (MT&R)	1 day	\$475
Fundamentals of Compressed Air Systems (CAC)	1 day	\$475

Main benefits of In-house sessions:

- Choose your own training dates
- Reduce your travel expenses
- **Reduce time spent outside the office/building**
- Flexibility of the training schedule
- Targeted examples, case studies & questions
- **Reduced costs**

If you are interested in training your staff in any of those programs, please contact Mr. Mathieu Côte at :
