

# Certified Measurement and Verification Professional (CMVP)

The Certified Measurement and Verification Professional (CMVP®) is the most recognized designation in measurement and verification providing a wide range of benefits to help you thrive in your occupation.

This **three-day program** covers all methods applied for the measurement and verification (M&V) of energy efficiency (EE) projects and includes, namely, the **International Performance Measurement and Verification Protocol (IPMVP®)**.

## Topics Covered

- Reasons for M&V
- Current M&V
- IPMVP
- Developing an M&V Plan
- Current issues in M&V
- Emission Trading
- Baseline Adjustments
- Key Elements of Success: Theory & Examples of IPMVP Options
- Selecting Options: Which One is Best Suited for My Project?
- Adherence with IPMVP

**Partners:** In Ontario, this program is eligible to the IESO's Training Incentive covering up to 50% of the fees. Visit the [saveONenergy](http://saveONenergy.com) website for more details.

## Target Clientele

This in-depth training program is ideal for the following clientele:

- Building/industry owners who wish to measure their projects' energy savings
