

LIGHTING SYSTEM SAVINGS

AGENDA

- > Understanding the System
 - The lighting system
 - Lighting terminology and principles
- > Understanding the Opportunities
 - Eliminating waste
 - Lighting control / Best practices
 - Maximizing efficiency
 - Lighting system retrofits / Best practices
 - Optimizing supply
- > Examples of Lighting Projects

LEARNING OBJECTIVES

- 1** To use terminology in discussion associated with lighting systems

- 2** To describe the various components of an effective lighting system and identify how they interact

- 3** To compare the pros and cons of various lighting technologies

- 4** To identify conservation and efficiency improvements for lighting systems
