

COMPRESSED AIR SYSTEMS

AGENDA

- > Compressed Air – An Expensive Utility
- > Systems Approach to Compressed Air Cost Reduction
- > Demand-side (End-use) Opportunities
- > Distribution System Opportunities
- > Supply-side Opportunities
- > Heat Recovery
- > The Compressed Air Audit
- > Resources

LEARNING OBJECTIVES

- 1 To describe the high cost of compressed air when compared to other systems

- 2 Identify opportunities for savings in compressed air systems
 - o With a systematic approach
